Bikou

Non-Liquid
Made in Japan

Best treatment
for glasses and smartphones.

Revolutionary technique
Puff type

Easy to wipe clean with just a tap. ✨

Anti-Fouling , Anti-Scattering, Smooth Touching operation, Beautiful Shiny

Keep into the pouch.

Sparkle beauty for the glasses and smartphones.

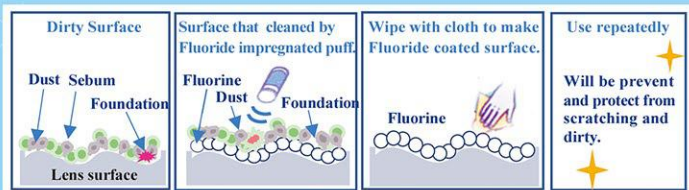

~ Get ready for your Fortune ~

Usage

Coating cleaner for lenses and glass surfaces.
Care for glasses, smartphones, tablets, hand mirrors
and so on. Very convenient cloth inside the bottle
(included 1pc of cloth).

Non liquid.

Successfully to impregnate puff with high
concentration fluoride by not using liquids such
as water and alcohol! Fluoride is ultra fine particles
and has high adsorption power, so it penetrates into
invisible hubbly and firmly coats the surface.
