

Easy to store after use. It can be stored neatly even if it is folded or rolled up.

FOG STOP CAN G

OEM

Quickly eliminates fogging by just wiping. One piece can be used for about 300 glasses. You can store your cloth in this can. We also accept OEM.

How to use : ① Breathe on the lens because the lens needs moisture. ② Wipe both sides of the lens 5 to 10 times while moisture remains in the lens. ③ By wiping thoroughly you can experience the anti-fogging effect. After use, please return to the can and store. Do not use with other anti-fog or cleaning agents. The anti-fog effect will be completely removed by washing with water.

Material : Cloth / polyester, nylon
Can / Aluminum
Ingredients : water, alcohol, surfactant

Contents / 1 piece of cloth
Cross size / 15x15cm
Can size / φ55mm x 20mm
MSRP / \$12

- 1 Breathe with a huff
- 2 Just wipe it with this cloth

ANITI FOG

Gel type anti-fog. The anti-fog effect lasts for a long time with just one application. 5g of this product can be used approximately 30 to 50 times.

How to use : Apply a rice grain-sized amount of gel to both sides of the lens (front and back), spread it with your fingertips, and then wipe it off with a tissue or soft cloth so that no gel remains. (Please do not use glasses cleaning cloth or tissue paper containing moisturizing ingredients.)

Ingredients : alcohol, surfactant

Contents / 5g
MSRP / 1 piece \$9

FOG STOP SPRAY

OEM

Just spray it on your lenses and wipe it with a tissue to eliminate fogging. Can be used for about 200 glasses.

How to use : After spraying on the back of the lens, spread it thoroughly with your fingers, and after the liquid has dried, wipe it off with a tissue. One pump is the appropriate amount for each lens (front and back). Do not use with other anti-fog or cleaning agents. The anti-fog effect will be completely removed by washing with water.

Material : PP (bottle)
Ingredients : water, alcohol, surfactant

Contents / 20ml
Size / 86mm x 55mm x 11mm
MSRP / \$8

- 1 spray it on the lens
- 2 Just wipe it with a tissue

The size that fits comfortably in your hand and stylish body are also popular.
